

## ACMGMP – Room Booking Display Media Player

### Product Information Data Sheet

The Concierge Room Booking Media Player provides all of the features of our 10" panel, but allows for your own display of any size. It uses a simple green and red display to instantly notify whether the room is available or in use.

If your display is Touch Enabled, it also allows for all the same user interaction as our 10" Panel.

### General Features

- Wi-Fi or Ethernet connectivity
- VESA compatible mounting options
- Multiple rooms on the one display
- Daily timeline view
- Supports any display size
- Supports up to 1920 x 1080 resolution displays
- Rugged Aluminium Chassis
- Built In HID Touch Support
- View daily, weekly or monthly booking information
- Book a room immediately
- Book a room for future date or time
- Extend or finish booking early
- Easily view room availability from a distance
- Easy to use web-based interface
- Room features displayed on screen (eg. projector, video conferencing)
- Report room features error through display (eg. projector malfunction)

### Compatibility

- Microsoft Exchange
- Office 365
- Google Apps
- Stand-alone mode
- Web-based configuration and monitoring directly on display or via Concierge Companion.
